

March 23, 1978

LB 945, 952, 992, 663,
192

CLERK: Bob, it has the emergency clause.

SENATOR CLARK: It does have? Well, we will return the thing back to E & R for engrossing then.

PRESIDENT: Are you going to withdraw your motion to return, Senator Clark?

SENATOR CLARK: Yes.

PRESIDENT: All right, vacate that record. We have under the South balcony a very good friend of everybody's, I think, Miss Mary Buglewicz, who is the recently elected President of the Nebraska State Education Association. She is a teacher in Omaha, and as far as I know, she is not related to anybody. Mary, would you stand and be recognized? George Buglewicz is described as Mary's Dad anymore.

CLERK: Mr. President, your committee on Enrollment and Review respectfully reports we have carefully examined and reviewed LB 952 and recommend that same be replaced on Select File. Mr. President, Senator Koch asks unanimous consent to print amendments to LB 663 in the Journal. Mr. President, your Enrolling Clerk respectfully reports that she has on this day at 2:05 p.m. presented to the Governor for his approval the following bill: 992. Mr. President, LB 192 was a bill introduced by Senator George Bill Burrows of the 30th District. Title read. The bill was read on January 11, 1977. It was referred to the Revenue Committee. It was advanced to General File. It failed to advance on April 26th, 1977. There were several amendments offered by Senator Burrows which were adopted by the body. There was an indefinitely postponed motion offered by Senator Koch on March 9th of this year which failed.

PRESIDENT: Before I recognize Senator Burrows, Senator Fitzgerald has some guests under the South balcony, Judy Johnston from Lincoln, Kim Kelly from Omaha and Debbie Kelly from Omaha. Would you three stand and be recognized, please. Also, Senator Burrows, before you speak to your motion, the Speaker would like to clarify again the situation with regard to priority bills. Mr. Speaker.

SPEAKER LUEDTKE: I wanted mention, I think there was some confusion by the question that was asked this morning, then again this afternoon. Someone has said how did the bills get into the order in which they are on the priority list. They are on there precisely as they appear on General File. So that if any of you change your mind, anyone of you changes your mind, now I just got a change from Senator Newell, which I will bring to your attention right now to prove..to show you what I mean. Senator Newell would rather take up LB 42, which is earlier on his General File list than 805, which is down the list quite a ways. He wants his bill to be 42. Now 42 fits in the General File list after Senator Savage's 721 so that would be #6 rather than Senator Clark's 87. Senator Newell will be #6. Now if any of you want to change, just let the Speaker know and we will revise the list but I am advising you now that Senator Newell is requesting that LB 42 be his priority bill. I will say this, that as
